A 2 Week Program

2. Rapid Career Advancement

What is Covered in this Program?

This program brings to you the Best Practices collected through Experience, Research and Industry Standards. This unique program provides the participant a multi-discipline understanding of Software QA & Testing Function..

You will learn about the related...

1. Problems
2. Management Concern Area
3. Methodology
4. Testing Business Processes
5. Best Practices
6. Software Testing Planning
7. Improvement
8. IT Tools
9. Your Action Plan to build
 1. Software Testing & Quality Excellence

Program Content

1. The software development business environment. Concerns of
 1. Software Developers
 2. Software Test & QA Professionals
 3. Management
2. Understanding the Problem
3. Software Development Life Cycle and QA & Testing Requirements
4. Master Test Planning & Detailed Test Plans
5. Test Analysis
6. Test Design
7. Test Implementation
8. Software Testing Methodologies
 1. Best Practice in Black Box Testing
 1. Systematic Test Design
 2. Art in Test Design

Practical Step-by-Step Methodology for Effective Software Testing Training (BST660)

2. Best Practice in White Box Testing
3. Regression Testing
4. Defect Management
9. Understanding the Industry Standards
10. Methodology, QA & Best Practices for
 1. Client-Developer Coordination
 2. Developer-Tester Coordination
 3. Test Team Effective Internal Coordination
 4. Strategies for Design-Testing Integration
 5. Standardization, Control and Documentation Strategy
 6. Testing Tools
 1. Third Party
 2. Developing Own
 7. Test Planning
 8. Test Analysis
 9. Test Design
 10. Test Implementation
 11. Test Execution
 12. Test Reporting
 13. Corrective and Preventive Action
11. Setting up Early warning system to Provide Decision Support Data
12. Workshop Case Studies 1
13. Workshop Case Studies 2
14. Program Recommendations
15. An Individualized Action Plan for each Participant.

Program Outcomes and Takeaways

Euro Training is in the business of providing practically useful training programs. Programs that -

1. Help the participant implement systems in his organization
2. Help the participant gain *multi-discipline* understanding of the issues related to Practical Step-by-Step Methodology for Effective Software Testing so that he can incorporate the

needs and expectations of all stakeholders and all his customers, in his improvement proposals and actions

3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience

A typical participant will take away a personalized action plan for himself, his business unit or his organization on how to apply the program contents to improve performance. The action plan may have two components:

1. A personal action plan
2. A business unit/organizational action plan

Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways-

1. Quickly make the participants competent, effective and productive on their job. Useful especially for
 1. Training new employees
 2. Competency building in existing employees transferred to a new assignment
 3. Training prior to a new project or initiative planned in the organization
2. Help the employee do his job well by developing competencies related to-
 1. Relevant technical knowledge and skills
 2. Organizations' strategic objectives
 3. Needs and expectations of the stakeholders/customers (internal and external)
 4. Good management practices
 5. Identifying opportunities to exceed stakeholder/customer expectations

Practical Step-by-Step Methodology for Effective Software Testing Training (BST660)

3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.

Individual Career Benefits for Participants

1. You gain a multi-discipline understanding of the issues. That means, when you make proposals or decisions on your job, you will keep in mind the needs and expectations of ALL the stakeholders/customers (internal and external).
2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the needs and expectations of your stakeholders/customers is known to enhance *job satisfaction* and reduce Monday morning blues.

This Program is Intended for...

Those new to the field take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

More experienced participants take away an individualized action plan as mentioned in the previous sections.

Implementation Teams: This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

Registration Recommendations

Team Nominations: This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

Single nominations will also be accepted for the program. Single nominations are typically used to -

1. Develop personnel skills in critical skills and methodologies covered in this program.
2. Train individuals for leadership roles in business units or departments. This program will help the participant coach and lead his team in these critical skills and methodologies. (The program typically does not cover coaching skills but provides the related technical understanding in an easy to communicate manner).
