- ✓ Documenting the Process Knowledge

A 2 Week Training Workshop

Program Overview

This program provides Quality Assurance Productivity Improvement in CAD Work, Standardization, Accuracy-First-Time? Tools and Procedures For Operators, Checkers, Engineers, and Supervisors. CAD usage is taught everywhere and Draftsmen and Engineers have been making Good Drawings - So where is the problem?

CAD drafting errors need a lot of time to detect, correct or redo- many of these errors are avoidable. Sooner or later all organizations realize it is much more advantageous to spend time in setting up procedures and checklists for CAD functions rather than trying to correct errors later. Tools and Methodologies are available to enable errors to be identified reliably. Productivity, accuracy, standardization strategic considerations are not taught anywhere else... except in this program!

Program Content

1. The CAD Section Issues & Problems
2. CAD Customer Needs & Expectations
3. CAD Drafting Errors
4. Methodologies & Tools for Minimize errors through Error Prevention
5. Methods & Tools for Automate error checking
6. Techniques for Maximize Productivity
7. Reduce Rework very Substantially
8. Facilitating Group working - Maintaining Standardization
9. Insuring you Drawings will be suitable for... Future CAD Upgrades
10. Move from one CAD Software to Another
11. Present & Future Compatible with Electronic Document Management Systems
12. Suitability for Serving as Base Drawings for Future Intelligent Applications
13. Obtaining Accurate Bill of Material
14. Ease of Performing Design Analysis
15. CAD Drawings Use for GIS Type Applications
16. CAD Section Processes
17. Documenting CAD Processes
18. Risks in CAD processes
19. Controls for CAD Processes
20. eEnabling CAD Section Management
21. Review & Improvement of CAD Processes
22. Workshop 1
23. Outline Action Plan to Implement Improvements based on Program Discussions

CAD Productivity & QA Techniques Training Program (CAD191-2)

24. Workshop 2
25. Advanced Topics - More Details on Above Issues Important for Particular Participant Group (Customization)
26. Action Plan to Implement Improvements based on Program Discussions
27. Program Recommendations

Who Should Attend?

All Participants will take away a good multi-discipline understanding of the issues involved in their work. Program will help the participants quickly become productive quickly and help build a knowledge framework that will help them identify, understand, classify and remember this program discussed technology, On the job learning and life experiences.

This program can be used to train implementation teams - when a new project or initiative is being started in your organization; when a new strategic focus is being initiated; just prior to a consultant being hired to advise the organization

Program Outcomes and Take-Away/s

Euro Training is in the business of providing practical useful training programs. Programs that

1. Help the participant implement improvements in his organization.
2. Help the participant gain Multi-discipline understanding of the issues so that he can incorporate the needs and expectations of all his stakeholders/ customers in his improvement proposals and actions.
3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience.

Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways

1. Quickly makes the participants competent, effective and productive on his job. Useful especially for

1. Training New employees
2. Competency Building in Existing Employees Transferred to a New Assignment
3. Training Prior to a New Project or Initiative Planned in the Organization
2. Create Competency in the employee to perform his job well. including in relation to
 1. Relevant Technical Knowledge, Skills and Competencies
 2. Organizations' Strategic Objectives
 3. Needs and Expectations of the Stakeholders/ Customers (internal & external)
 4. Good Management Practices
 5. Identifying opportunities to Exceed Stakeholder/ Customer Expectations
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.
4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please inquire about our post program mentoring plans).

Participant Individual Career Benefits

1. You gain a multi-discipline understanding of the issues. Meaning when you make proposals and decisions on your related job you will

CAD Productivity & QA Techniques Training Program (CAD191-2)

keep in mind the needs and expectations of ALL the stakeholders/ customers (internal & external)

2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the Needs and Expectations of your stakeholders/ customers is known to enhance Job Satisfaction and reduce Monday Morning Blues.
4. As one of your stakeholders/customers is Executive Management, the program ensures that you know the strategic imperatives that drive the organization's efforts in your relevant job area.

This Program is Intended for...

Those new to the field take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

More experienced participants take away an individualized action plan as mentioned in the previous sections.

Implementation Teams: This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

No limitations are being placed on who can attend. If you are interested in the program outcomes and takeaways, or feel you can benefit from the organizational and personal benefits mentioned above, you are welcome to register for this program. Program instructors have the knowledge, experience and access to resources required to customize the program to the specific job related needs of each program group

Registration Recommendations

Team Nominations: This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

Single nominations will also be accepted for the program. Single nominations are typically used to -

1. Develop personnel skills in critical skills and methodologies covered in this program.
2. Train individuals for leadership roles in business units or departments. This program will help the participant coach and lead his team in these critical skills and methodologies. (The program typically does not cover coaching skills but provides the related technical understanding in an easy to communicate manner).
