

6 Days of World Class Training in

# Data Analytics for Industrial Data Acquisition & eLogging Systems

Smart Machines Data Analytics

Increasing Reliability of Process Equipment

6 Day Training including 1 Day Workshop

- ✓ Data Acquisition Technologies
- ✓ Operation Support Analytics
- ✓ Data Loggers
- ✓ Maintenance Support Analytics

A 6 Day Training including 1 Day Workshop

## Program Overview

Almost every modern automated production system incorporates a Data Acquisition System. These systems generate a lot of data that can be analyzed to improve the production processes, maintain the production equipment, perform root cause analysis and generally make the systems more reliable. This program provides the participant an understanding of the technology, methods and data analysis opportunities offered by such systems. This same technology is now getting extended to Internet of Things.

This program provides a multi-discipline understanding of such systems, with the objective of the participant being able to participate in teams that will Specify the Requirements, Perform Design Reviews, Design Data Analytic Solutions and Create Real Time Performance Dashboards.

## Program Content

(Brochure under Revision - please contact [das766-6@EuroTraining.com](mailto:das766-6@EuroTraining.com) for latest brochure)

1. Workshop 1 Applying What you have Learnt.
2. Program Recommendations

## Who Should Attend?

Professionals, Managers and IT Professionals working in Automated Production Environments where smart machines, data acquisition systems, automated control systems are being used. Participants will be from Process IT Departments, Oil & Gas Industry, Pipelines, Refineries, Petro-Chemical Plants, Oil Drilling, Corporate Security and similar Automation Environments.

If the objective of attending the program is to go back and help setup or improve such a system, or to setup a Data Analytics System to Provide Decision Support System, then it is recommended that a team of at least two participants together should be sent for the program.

### **Program Outcomes and Take-Away/s**

Euro Training is in the business of providing practical useful training programs. Programs that

1. Help the participant implement improvements in his organization.
2. Help the participant gain Multi-discipline understanding of the issues so that he can incorporate the needs and expectations of all his stakeholders/ customers in his improvement proposals and actions.
3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience.
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.
4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please inquire about our post program mentoring plans).

### **Benefits to Organization**

Sending participant/s to this program will benefit the organization in the following ways

1. Quickly makes the participants competent, effective and productive on his job. Useful especially for
  1. Training New employees
  2. Competency Building in Existing Employees Transferred to a New Assignment
  3. Training Prior to a New Project or Initiative Planned in the Organization
2. Create Competency in the employee to perform his job well. including in relation to
  1. Relevant Technical Knowledge, Skills and Competencies
  2. Organizations' Strategic Objectives
  3. Needs and Expectations of the Stakeholders/ Customers (internal & external)
  4. Good Management Practices
  5. Identifying opportunities to Exceed Stakeholder/ Customer Expectations

### **Participant Individual Career Benefits**

1. You gain a multi-discipline understanding of the issues. Meaning when you make proposals and decisions on your related job you will keep in mind the needs and expectations of ALL the stakeholders/ customers (internal & external)
2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the Needs and Expectations of your stakeholders/ customers is known to enhance Job Satisfaction and reduce Monday Morning Blues.
4. As one of your stakeholders/customers is Executive Management, the program ensures that you know the strategic imperatives that drive the

organization's efforts in your relevant job area.

### **This Program is Intended for...**

**Those new to the field** take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

**More experienced participants** take away an individualized action plan as mentioned in the previous sections.

**Implementation Teams:** This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

No limitations are being placed on who can attend. If you are interested in the program outcomes and takeaways, or feel you can benefit from the organizational and personal benefits mentioned above, you are welcome to register for this program. Program instructors have the knowledge, experience and access to resources required to customize the program to the specific job related needs of each program group

### **Registration Recommendations**

**Team Nominations:** This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or

provide mutual support in order to implement the action plan.

**Single nominations** will also be accepted for the program. Single nominations are typically used to -

1. Develop personnel skills in critical skills and methodologies covered in this program.
2. Train individuals for leadership roles in business units or departments. This program will help the participant coach and lead his team in these critical skills and methodologies. (The program typically does not cover coaching skills but provides the related technical understanding in an easy to communicate manner).
