A 2 Week Professional Training In...

Program Overview

This program provides you an understanding of Apache Hadoop Big Data Ecosystem which is an open source distributed processing database framework for storing and processing large volumes of structured or unstructured data on cheap multiple computer. You will learn that Hadoop, based on Java, is a key tool to use for Big Data Analytics as it allows Manipulation of Data Stored on Multiple Hardware Resources. Program will also explain the various Tools we can use with Hadoop to develop specific industry solutions.

This program provides the participant the required Knowledge and Skills to Understand the Bigger Picture and productively contribute to Big Data Project Proposals, Project Design and Project Implementations using Hadoop. The Participant will take away a detailed understanding of the step-by-step methodology for implementing Big Data Projects using Hadoop.

Program Content

1. Overview of the Hadoop Framework
2. HDFS Distributed Data Storage
3. MapReduce for Usable Access to Big Data
4. Hadoop Common Java Data Access Tools
5. Yarn to Manage Computing Resources
6. How it All Works Together
7. Hadoop vs. Spark Big Data Framework

8. MapReduce vs. Spark
9. Leveraging Spark for Speed, Real Time & Advanced Analytics
10. Leveraging Spark for Real Time Reporting & Dashboards
11. Leveraging Spark for Machine Learning
12. Popular Tools for Data Analysis using Hadoop Framework
13. Ambari for Webased Monitoring of Hadoop Clusters
14. Avro Data Serialization System
15. Cascading for Hadoop Application Development
16. Chukwa for Hadoop Monitoring Data from Clusters
17. Flume to Collect external Log Data for use in Hadoop
18. HBase traditional Database providing random fast access to Big Data
19. HDFS Distributed File System for Hadoop
20. Hive is Data warehouse for Hadoop
21. Hivemall is Collection of Machine Learning Algorithms for Hive
22. Mahout for Scalable Machine Learning
23. MapReduce Programming Model part of Hadoop
24. Oozie Workflow Scheduler for Hadoop
25. Pig (Apache) for Distributed Big Data Analysis
26. Sqoop for Data Import Export from Big Databases

Hadoop Big Data Technologies and its Tools & Projects Training Program (HMS448-2)

27. Spark like MapReduce but Faster for Data Processing
28. Tez allows Simplification of Processing Tasks
29. Zookeeper a Big Data Administration Tool
30. Step by Step Developing Specific Industry Solutions
31. Workshop 1
32. Building a Quality Assured System for Developing Specific Industry Solutions
33. Workshop 2
34. Your Action Plan
35. Program Recommendations

Who Should Attend?

This program is intended for all Big Data Professionals, Consultants and Managers using Hadoop on their Projects.

This program can be used to train implementation teams - when a new Hadoop based Big Data project or initiative is being started in your department, business unit or organization; when a new big data strategic focus is being initiated; or just prior to hiring a consultant to advise the organization on Big Data initiatives and Improvements.

Program Outcomes and Take-Away/s

Euro Training is in the business of providing practical useful training programs. Programs that

1. Help the participant implement improvements in his organization.
2. Help the participant gain Multi-discipline understanding of the issues so that he can incorporate the needs and expectations of all his stakeholders/ customers in his improvement proposals and actions.
3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience.

Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways

1. Quickly makes the participants competent, effective and productive on his job. Useful especially for
 1. Training New employees
 2. Competency Building in Existing Employees Transferred to a New Assignment
 3. Training Prior to a New Project or Initiative Planned in the Organization
2. Create Competency in the employee to perform his job well. including in relation to
 1. Relevant Technical Knowledge, Skills and Competencies
 2. Organizations' Strategic Objectives
 3. Needs and Expectations of the Stakeholders/ Customers (internal & external)
 4. Good Management Practices
 5. Identifying opportunities to Exceed Stakeholder/ Customer Expectations
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.
4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please inquire about our post program mentoring plans).

Participant Individual Career Benefits

1. You gain a multi-discipline understanding of the issues. Meaning when you make proposals and decisions on your related job you will keep in mind the needs and expectations of ALL the stakeholders/ customers (internal & external)
2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the Needs and Expectations of your stakeholders/ customers is known to enhance Job Satisfaction and reduce Monday Morning Blues.
4. As one of your stakeholders/customers is Executive Management, the program ensures that you know the strategic imperatives that drive the organization's efforts in your relevant job area.

This Program is Intended for...

Those new to the field take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

More experienced participants take away an individualized action plan as mentioned in the previous sections.

Implementation Teams: This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

No limitations are being placed on who can attend. If you are interested in the program outcomes and takeaways, or feel you can benefit from the organizational and personal benefits mentioned above, you are welcome to register for this program. Program instructors have the knowledge, experience and access to resources required to customize the program to the specific job related needs of each program group

Registration Recommendations

Team Nominations: This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

Single nominations will also be accepted for the program. Single nominations are typically used to -

1. Develop personnel skills in critical skills and methodologies covered in this program.
2. Train individuals for leadership roles in business units or departments. This program will help the participant coach and lead his team in these critical skills and methodologies. (The program typically does not cover coaching skills but provides the related technical understanding in an easy to communicate manner).
