

Technology for the Pipeline Professionals & Supervisors

B31.1 Industrial Plants & Marine Pipeline & Piping Inspection, Maintenance, Repair and Integrity

Insuring Reliable Operation
Building a Knowledgebase

2 Week Training Program

✓ Pipeline QA System

✓ Pipeline QC System

A 2 Week Training Program

Program Overview

This program is designed to provide the participant a complete, comprehensive, simplified and practical understanding of ASME B31.1 **Industrial Plants & Marine** Code with reference to Existing Petroleum Process Piping Inspection, Maintenance, Repair and Integrity.

This program will build practical capabilities in Developing Implementation Strategies for Pipeline Inspection & Maintenance, Preparing Detailed Maintenance Plans, Investigating & Implementing Improvements and Building Knowledgebase for Inspection, Maintenance and Integrity Processes. Program covers Industry Practice ASME B31.1 and includes Good and Best Practices in this Field. Included in the program are Strategies for Preventive, Corrective and Condition Based Maintenance.

Program Content

1. Understanding B31.1 Codes
2. Major Requirements of B31.1 Codes
3. Compliance Checklists for B31.1 Codes
4. Related Equipment & Facilities
5. Pipeline Inspection Methods

✓ Risk Based Inspection

✓ Pipeline Good & Best Practices

6. Pipeline Inspection Tools
7. Pipeline Periodic Inspection Checklists
8. Pipeline Inspection on Incidents
9. Pipeline Preventive Maintenance
10. Pipeline Predictive Maintenance
11. Pipeline Corrective Maintenance
12. Pipeline Integrity
13. Pipeline Reliability
14. Pipeline Remaining Life Analysis
15. Program Recommendations
16. Setting up Early warning system to Provide Decision Support Data

Workshop 1

Outline Action Plan to Implement Program
Communicated Good and Best Practices

Workshop 2

Advanced Topics? More Details on Some Above Issues Important for Participants (Customized for each Participant Group)

Increasing Productivity through Using Standard Forms, Templates, Checklists to Perform the IP Processes

Performance Management System to Measure Level of Performance in the Above Processes? we will develop the KPIs for the Above Processes

Planning & Implementing a
Departmental/Functional Knowledge Base?
For IP Rights and Methods? Key to
Achieving Quality Service
Performance/Repeatability and Superior
Performance in Our Organization
Your Individualized Action Plan for
Implementing Good Practices and Best
Practices Discussed throughout the Program
Enhanced Program Recommendations

Who Should Attend?

This program is intended for Professionals involved in **Industrial Plants & Marine Pipeline Management, Maintenance-Planning, Operation, Repair and Maintenance. Those new to the field** take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

Implementation Teams: This program can be used to train implementation teams... when a new project or initiative is being started in your organization; when a new strategic focus is being initiated; just prior to a consultant being hired to advise the organization

Program Outcomes and Take-Away/s

Euro Training is in the business of providing practical useful training programs. Programs that

1. Help the participant implement improvements in his organization.
2. Help the participant gain Multi-discipline understanding of the issues so that he can incorporate the needs and expectations of all his stakeholders/ customers in his improvement proposals and actions.
3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience.

Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways

1. Quickly makes the participants competent, effective and productive on his job. Useful especially for
 1. Training New employees
 2. Competency Building in Existing Employees Transferred to a New Assignment
 3. Training Prior to a New Project or Initiative Planned in the Organization
2. Create Competency in the employee to perform his job well. including in relation to
 1. Relevant Technical Knowledge, Skills and Competencies
 2. Organizations' Strategic Objectives
 3. Needs and Expectations of the Stakeholders/ Customers (internal & external)
 4. Good Management Practices
 5. Identifying opportunities to Exceed Stakeholder/ Customer Expectations
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.
4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please

inquire about our post program mentoring plans).

Participant Individual Career Benefits

1. You gain a multi-discipline understanding of the issues. Meaning when you make proposals and decisions on your related job you will keep in mind the needs and expectations of ALL the stakeholders/customers (internal & external)
2. Understanding and acting with understanding of the Needs and Expectations of your stakeholders/customers is known to enhance Job Satisfaction and reduce Monday Morning Blues.
3. As one of your stakeholders/customers is Executive Management, the program ensures that you know the strategic imperatives that drive the organization's efforts in your relevant job area.

This Program is Intended for...

Those new to the field take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

More experienced participants take away an individualized action plan as mentioned in the previous sections.

Implementation Teams: This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

No limitations are being placed on who can attend. If you are interested in the program outcomes and takeaways, or feel you can benefit from the organizational and personal benefits mentioned above, you are welcome to register for this program. Program instructors have the knowledge, experience and access to resources required to customize the program to the specific job related needs of each program group

Registration Recommendations

Team Nominations: This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

Single nominations will also be accepted for the program. Single nominations are typically used to -

1. Develop personnel skills in critical skills and methodologies covered in this program.
2. Train individuals for leadership roles in business units or departments. This program will help the participant coach and lead his team in these critical skills and methodologies. (The program typically does not cover coaching skills but provides the related technical understanding in an easy to communicate manner).
