## A 2 Week Training Program

### Program Overview

Project Supervision Managers, Engineers, Supervisors and sometimes even Managers working on Construction Projects often fail to recognize situations where they could be directly or indirectly delaying the project, causing reduced productivity and frequently even increasing costs for their organization. They often lack knowledge or understanding of the New Productivity, Quality and Performance improvement opportunities available. They often do not plan for Customer Satisfaction activities that bring repeat business. The above needs or knowledge gaps are addressed by this program.

### Program Contents

This Program consists of Presentations, Group Activities and Real Life Case Studies. It follows a Practical Procedures and Checklists Approach to Solving Problems.. This program is not only about "How to do it?" but also emphasizes "How Not to do It?".

### Program Outcomes and Takeaways

Euro Training is in the business of providing practically useful training programs. Programs that -

1. Help the participant implement systems in his organization
2. Help the participant gain *multi-discipline* understanding of the issues related to Project Management Skills For Contractors so that he can incorporate the needs and expectations of all stakeholders and all his

customers, in his improvement proposals and actions

3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience

**A typical participant will take away a personalized action plan** for himself, his business unit or his organization on how to apply the program contents to improve performance. The action plan may have two components:

1. A personal action plan
2. A business unit/organizational action plan

### Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways-

1. Quickly make the participants competent, effective and productive on their job. Useful especially for
  1. Training new employees
  2. Competency building in existing employees transferred to a new assignment
  3. Training prior to a new project or initiative planned in the organization
2. Help the employee do his job well by developing competencies related to-
  1. Relevant technical knowledge and skills
  2. Organizations' strategic objectives
  3. Needs and expectations of the stakeholders/customers (internal and external)
  4. Good management practices
  5. Identifying opportunities to exceed stakeholder/customer expectations
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to

## Project Management Skills For Contractors Training (PMC261)

use methodology, based on *checklist and quality assurance* approaches.

4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please inquire about our post program mentoring plans).

### Individual Career Benefits for Participants

1. You gain a multi-discipline understanding of the issues. That means, when you make proposals or decisions on your job, you will keep in mind the needs and expectations of ALL the stakeholders/customers (internal and external).
2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the needs and expectations of your stakeholders/customers is known to enhance *job satisfaction* and reduce Monday morning blues.
4. As one of your stakeholders/customers is Executive Management, the program ensures that you know the strategic imperatives that drive the organization's efforts in your relevant job area.

### This Program is Intended for...

**Those new to the field** take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

**More experienced participants** take away an individualized action plan as mentioned in the previous sections.

**Implementation Teams:** This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

No limitations are being placed on who can attend. If you are interested in the program outcomes and takeaways, or feel you can benefit from the organizational and personal benefits mentioned above, you are welcome to register for this program. Program instructors have the knowledge, experience and access to resources required to customize the program to the specific job related needs of each program group.

### Registration Recommendations

**Team Nominations:** This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

**Single nominations** will also be accepted for the program.
