Artificial Lift Technology, Processes and Management

Artificial Lift Systems for Greatest Efficiency

Monitoring & Effective Management of Artificial Lift Systems

2 Week Training Workshop

- ✓ The Technologies
- ✓ The Design Strategies
- ✓ The Control Systems
- ✓ Measuring Effectiveness

A 2 Week Training Workshop

Program Overview

This program will provide the participant Multi-discipline Understanding of technology and methods of Artificial Lift techniques including ESP, Gas lift and Beam Pumps and their Efficient Design, Selection, Planning, Monitoring, Wireline operations, Maintenance & Management.

The unique multidiscipline practical approach enables the participant to quickly become effective on his job and provide useful contribution to Effective Design, Operation, Maintenance and Management of Oil Field Artificial Lift Systems.

Program Content

1. Artificial Lift Technologies
2. Understanding the Underlying Fluid Dynamics
3. Details of Rod Pumping Systems
4. Details of Progressive Cavity Systems
5. ESP - Electrical Submersible System Details
6. Gas List System Details
7. Artificial List Technology Options Compared
8. Preparing Artificial Lift System Scope of Works
9. Installation Planning of Artificial List System
10. QA/QC Plan for Artificial Lift Installation Project
11. Risk and Contingency Planning
12. Installation and Testing of New Installations
13. Operation Monitoring
14. Performance Reporting of Artificial Lift Systems
15. Planning Continual Improvement
16. Workshop 1 Hands on Needs Analysis and Scoping Artificial Lift Systems
17. More detailed discussion on issues discussed during the 1st week
18. Program Customization for the Participant Group
19. Identifying the required Procedures, Method Statements, Standard
20. Program Recommendations
21. Participant's Individualized Action Plan Recommendations after attending the Program

Artificial Lift Technology, Processes and Management Training Program (PTU494-2)

Who Should Attend?

This program is intended for all Upstream Professionals, Consultants and Managers including Geoscientists involved in making decisions about Artificial Lift System Need to Operational Monitoring. Participants attending the program take away a good multi-discipline understanding of the Artificial Lift issues. This training program helps the participant become productive quickly and help build a related Knowledge Framework that will help him identify, understand, classify and remember the relevant on the job learning and experiences. Implementation Teams: This program can be used to train implementation teams - when a new artificial lift project or initiative is being considered in your production facilities. This program will also help the participant prepare his work scope and manage the contractors entrusted to install the Artificial Lift System.

Program Outcomes and Take-Away/s

Euro Training is in the business of providing practical useful training programs. Programs that

1. Help the participant implement improvements in his organization.
2. Help the participant gain Multi-discipline understanding of the issues so that he can incorporate the needs and expectations of all his stakeholders/ customers in his improvement proposals and actions.
3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience.

Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways

1. Quickly makes the participants competent, effective and productive on his job. Useful especially for
 1. Training New employees
 2. Competency Building in Existing Employees

Transferred to a New Assignment

3. Training Prior to a New Project or Initiative Planned in the Organization
2. Create Competency in the employee to perform his job well. including in relation to
 1. Relevant Technical Knowledge, Skills and Competencies
 2. Organizations' Strategic Objectives
 3. Needs and Expectations of the Stakeholders/ Customers (internal & external)
 4. Good Management Practices
 5. Identifying opportunities to Exceed Stakeholder/ Customer Expectations
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.
4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please inquire about our post program mentoring plans).

Participant Individual Career Benefits

1. You gain a multi-discipline understanding of the issues. Meaning when you make proposals and decisions on your related job you will keep in mind the needs and expectations of ALL the stakeholders/ customers (internal & external)

Artificial Lift Technology, Processes and Management Training Program (PTU494-2)

2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the Needs and Expectations of your stakeholders/customers is known to enhance Job Satisfaction and reduce Monday Morning Blues.
4. As one of your stakeholders/customers is Executive Management, the program ensures that you know the strategic imperatives that drive the organization's efforts in your relevant job area.

This Program is Intended for...

Those new to the field take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

More experienced participants take away an individualized action plan as mentioned in the previous sections.

Implementation Teams: This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

No limitations are being placed on who can attend. If you are interested in the program outcomes and takeaways, or feel you can benefit from the organizational and personal

benefits mentioned above, you are welcome to register for this program. Program instructors have the knowledge, experience and access to resources required to customize the program to the specific job related needs of each program group

Registration Recommendations

Team Nominations: This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

Single nominations will also be accepted for the program. Single nominations are typically used to -

1. Develop personnel skills in critical skills and methodologies covered in this program.
2. Train individuals for leadership roles in business units or departments. This program will help the participant coach and lead his team in these critical skills and methodologies. (The program typically does not cover coaching skills but provides the related technical understanding in an easy to communicate manner).
