

Helping Create Performance Excellence

Wastewater Treatment and Reclamation Technology

3 Week Training Workshop

- ✓ Including its Practical Management
- ✓ Effective Operation Management of Petrochemical, Industrial, Municipal and Hybrid Systems

A 3 Week Training Workshop

Workshop Overview

This Program is presented in Easy to Understand. Practical Apply and Implement Style. It will provide Full Technology For Your Key Staff. Program will lead to participant Improved Productivity And Information Level To Enable Effective Decision Making On The Job.

This is a Technology Transfer Course Intended for Engineers and Supervisors of Industries, Municipalities Water Pollution Control Agencies.

Workshop Content

PRACTICAL MANAGEMENT ISSUES

1. Management Issues
2. Good Management Practices
3. Good Operating Practices

WASTE WATER COLLECTION SYSTEMS:

1. Collection Systems - Municipal Industrial
2. System Cleaning and Maintenance
3. Underground Repair and New Construction
4. Lift Stations
5. Equipment Maintenance and Safety Issues

CONVENTIONAL WASTE WATER TREATMENT SYSTEMS

1. Waste Treatment Ponds
2. Racks
3. Screens
4. Comminutors
5. Grit Removal
6. Sedimentation
7. Flotation
8. Trickling Filters
9. Rotating Biological Contactors
10. Activated Sludge Plants
11. Waste Treatment Ponds
12. Disinfection and Chlorination
13. Sludge Digestion and Solids Handling
14. Plant Safety
15. Plant Maintenance
16. Laboratory Procedures and Chemistry
17. Calculations - Analysis - Records.
18. Odor Control
19. Activated Sludge
20. Instrumentation
21. Waste Monitoring
22. Support Systems.

Wastewater Treatment and Reclamation Technology Training (WWT108)

MUNICIPAL WASTE WATER RECLAMATION.

INDUSTRIAL WASTE WATER:

1. Nature of Waste Water from different Industries
2. Monitoring Techniques
3. API Separators
4. Conventional Industrial Treatment Systems
5. Panic Ponds
6. Chemical Treatment
7. Customized Activated Sludge
8. Petrochemical Waste Water - Special Considerations

INDUSTRIAL MUNICIPAL WASTE WATER RECLAMATION STRATEGY:

1. The Problem
2. The Systematic Study of the Problem
3. The Pilot Plant Techniques
4. Study for your Waste Water,
5. Preparing Chemical Resistant Activated Sludge
6. Pilot Plant Results Analysis
7. Scaling Up
8. Design of Waste Water Treatment and Reclamation Plants
9. Ion Exchange Softeners
10. Finishing Treatment for Reclaimed Water
11. Special Chemical Additives for particular reuse applications
12. Monitoring and Operation of Reclamation Facilities
13. Special Precautions, Problems and Solutions with Reclaimed Water use.

Workshop Outcomes and Takeaways

Euro Training is in the business of providing practically useful training programs. Programs that -

1. Help the participant implement systems in his organization

2. Help the participant gain *multi-discipline* understanding of the issues related to Wastewater Treatment and Reclamation Technology so that he can incorporate the needs and expectations of all stakeholders and all his customers, in his improvement proposals and actions
3. Help build a knowledge framework in which job related experience can be caught and remembered as his experience

A typical participant will take away a personalized action plan for himself, his business unit or his organization on how to apply the program contents to improve performance. The action plan may have two components:

1. A personal action plan
2. A business unit/organizational action plan

Benefits to Organization

Sending participant/s to this program will benefit the organization in the following ways-

1. Quickly make the participants competent, effective and productive on their job. Useful especially for
 1. Training new employees
 2. Competency building in existing employees transferred to a new assignment
 3. Training prior to a new project or initiative planned in the organization
2. Help the employee do his job well by developing competencies related to-
 1. Relevant technical knowledge and skills
 2. Organizations' strategic objectives
 3. Needs and expectations of the stakeholders/customers (internal and external)
 4. Good management practices

Wastewater Treatment and Reclamation Technology Training (WWT108)

5. Identifying opportunities to exceed stakeholder/customer expectations
3. Create a pool of trained manpower that can cost-effectively disseminate the knowledge to a large number of employees inside the organization. This is made possible by Euro Training's unique, easy to understand and easy to use methodology, based on *checklist and quality assurance* approaches.
4. Euro Training instructors often act as mentors for the participants. It's the most effective way to ensure effective competency development and the subsequent application of those competencies on the job, by your motivated staff. We do have consultants available across Americas, Europe, Asia and Africa (Please inquire about our post program mentoring plans).

Individual Career Benefits for Participants

1. You gain a multi-discipline understanding of the issues. That means, when you make proposals or decisions on your job, you will keep in mind the needs and expectations of ALL the stakeholders/customers (internal and external).
2. The action plan you take away will help you make a difference in your business unit or organization! When you talk about this difference you have made to your organization in your resume, you will be a prime candidate for career advancement in your own organization or in your next job(s).
3. Understanding and acting with understanding of the needs and expectations of your stakeholders/customers is known to enhance *job satisfaction* and reduce Monday morning blues.

This Workshop is Intended for...

Those new to the field take away a good multi-discipline understanding of the issues involved in their work. It helps them in becoming productive quickly and in building a knowledge framework that will help them identify, understand, classify and remember on the job learning and experiences.

More experienced participants take away an individualized action plan as mentioned in the previous sections.

Implementation Teams: This program can be used to train implementation teams...

1. when a new project or initiative is being started in your organization
2. when a new strategic focus is being initiated
3. just prior to a consultant being hired to advise the organization

Each participant will take away a memorable and potentially life changing experience from the program.

Registration Recommendations

Team Nominations: This program aims to ensure the participants have their individualized improvement plan at the end of the program. So, foreseeing the effort involved, anticipating resistance and implementation requirements, it is recommended that the organization nominate **at least two participants together** (three will be more desirable) for this program.

It is anticipated that these 2 or more participants will work together as a team or provide mutual support in order to implement the action plan.

Single nominations will also be accepted for the program.

REGISTRATION INFORMATION

- To register:** Please send us an official letter confirming registration (on organizational letterhead or Authorized Email).
- Program Fee is
 - USD \$13,800 per participant and includes Course Materials, Certificate, Refreshments and Lunch. (Fee at London, Paris and Kuala Lumpur is \$15,180 per participant)
- Accommodation & Taxes/VAT (if applicable) is not included in Program fee. Special rates will be available at venue hotel for the participants.
- Special discount of 10% is offered for participants who pay their fees at least 45 days before start of the program.
- Refund will not be considered where the participant cancels his registration less than 3 weeks before start of the program. Alternate nominations will be allowed anytime before program start.
- All participants are required to fill in Participant Information form - on first day of the program. Each program Undergoes Customization to Better Meet Participant Present and Future Career Needs. Please be prepared to let the Instructor/s know about your organization's Special Needs, Interests or Initiatives.
- It is always useful for participants to bring their existing problems or case studies, work-process flow charts or job related problems for discussion - consideration will be at sole discretion of the program director/s.
- Provisional Registration:** You can make a provisional registration by sending us an email – an official registration request can be made within 2 weeks. This will ensure we will reserve a seat. All provisional registrations automatically cancel 2 weeks before program start.
- Please note: No Live Voice Requests for Registration or Provisional Registrations.
