

# Power Generation Knowledge Centre

Power Plants, Boilers, Steam and Gas Turbines. Generators, Combined Cycle, Cooling Water, District Cooling or Heating Systems

## 3 Weeks Training Programs List

| Program Code | Program Name<br>(Click to Access Website Brochure with Current Dates)                                 | Obtain a Printable<br>(pdf) Version<br>from Website |
|--------------|-------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| CGP3353      | Coal Gas Plants - Technology, Feasibility, Planning and Implementation                                | Print                                               |
| GPW3123      | Boiler Tube Failures and Boiler Maintenance                                                           | Print                                               |
| INS6723      | Electrical Engineering Project Construction Inspections Skills                                        | Print                                               |
| PAM9503      | Effective Electrical Power Asset Management to International Standards                                | Print                                               |
| PCM5303      | Condition Monitoring and Management of Power Plant Equipment                                          | Print                                               |
| PCM5323      | Vibration Monitoring, Analysis and Management of Power Plant Rotating Equipment                       | Print                                               |
| PDS6403      | Understanding Technology Behind Modern Electrical Power Systems and Equipment                         | Print                                               |
| PDS6503      | A-Z of Generator Excitation Systems                                                                   | Print                                               |
| PEM1093      | Designing Competitive National Electricity Markets                                                    | Print                                               |
| PEQ3403      | Managing Troubleshooting and Maintenance of Electrical Equipment                                      | Print                                               |
| PEQ3503      | Managing Installation of Electrical Equipment and Control Systems                                     | Print                                               |
| PNT7003      | Latest Thermal Power Plant Technologies                                                               | Print                                               |
| POW3063      | Large Scale Boiler Technology Processes and Management                                                | Print                                               |
| POW3083      | Management Analysis, Operational Audit and Performance Evaluation of Electric Power Generation Plants | Print                                               |
| POW3093      | Planning and Managing Large Scale Boiler Condition Monitoring and Maintenance                         | Print                                               |
