

New & Advanced Technologies Knowledge Center

New Technologies for your Plants, Facilities, Designs, Products, Services and Strategic Plans

5 Days (1 Week) Training Programs List

Program Code	Program Name (Click to Access Website Brochure with Current Dates)
AET7655	Alternate Energy Technologies for Public and Private Transportation - Technology and Applications
BPP1435	Innovatively Using Plastic Materials for Design of Products
FCT3405	Fuel Cell Technology and Applications
FOT3505	Fiber Optic Technology and Applications
HHD7345	Handheld Devices for your Business - Technologies, Applications and Implementation
ICS6505	Latest IT Tools and Methods to Reduce Costs and Improve Services
ISC8855	New Semiconductor Chips for Unique Product Development
LTA6665	Laser Technologies and Applications
MVS8705	Visualization Skills - To Develop Your Projects, Products and Services
NDA3535	Drone Based Business Applications for the Petro-Chemical Industry
NDA3575	Drone Based Applications for Law Enforcement and Security Operations
NTA4065	Nano Technology - Technology and Applications
NTA7555	Micromachines and Nano technology Applications for Upstream Operations
NTD7855	Micromachines and Nano technology Applications for Downstream Operations
NTI7955	Micromachines and Nano technology Applications for Industries
NTM8055	Micromachines and Nano technology Applications for Medical Industry
OSD3455	Optical Sensing and Infrared Devices for Industrial Applications
PNP2605	New Products and Materials for Construction Projects
QFS2405	Quick Installation Pre-Fabricated Structures - Visualization, Design, Planning and Implementation
RDF6005	RIDF Applications and Management for Business and Industry (Radio Frequency Identification Technologies)
REC4705	Raising Early Stage Capital for your Business or Project
VRT8405	Virtual Reality Technologies and Applications for your Business
