

New & Advanced Technologies Knowledge Center

New Technologies for your Plants, Facilities, Designs, Products, Services and Strategic Plans

4 Weeks Certified Professional Training Workshops

Program Code	Professional Certification Workshops (Click to Access Website Brochure with Current Dates)
AET7654	Alternate Energy Technologies for Public and Private Transportation - Technology and Applications
BPP1434	Innovatively Using Plastic Materials for Design of Products
FCT3404	Fuel Cell Technology and Applications
FOT3504	Fiber Optic Technology and Applications
HHD7344	Handheld Devices for your Business - Technologies, Applications and Implementation
ICS6504	Latest IT Tools and Methods to Reduce Costs and Improve Services
ISC8854	New Semiconductor Chips for Unique Product Development
LTA6664	Laser Technologies and Applications
MVS8704	Visualization Skills - To Develop Your Projects, Products and Services
NDA3534	Drone Based Business Applications for the Petro-Chemical Industry
NDA3574	Drone Based Applications for Law Enforcement and Security Operations
NTA4064	Nano Technology - Technology and Applications
NTA7554	Micromachines and Nano technology Applications for Upstream Operations
NTD7854	Micromachines and Nano technology Applications for Downstream Operations
NTI7954	Micromachines and Nano technology Applications for Industries
NTM8054	Micromachines and Nano technology Applications for Medical Industry
OSD3454	Optical Sensing and Infrared Devices for Industrial Applications
PNP2604	New Products and Materials for Construction Projects
QFS2404	Quick Installation Pre-Fabricated Structures - Visualization, Design, Planning and Implementation
RDF6004	RIDF Applications and Management for Business and Industry (Radio Frequency Identification Technologies)
REC4704	Raising Early Stage Capital for your Business or Project
VRT8404	Virtual Reality Technologies and Applications for your Business
