<td>TPS5426</td>
<td>Prequalification of Suppliers, Service Providers and Contractors for Key Projects</td>
<td>Once you have hired a Contractor - who is now failing to perform - the Best Advice is to put your arms around his shoulder and help him complete the project. Keep the documentation on the help that needed to be provided and report this in the project closedown report - so he can be blacklisted or adequately vetted next time he bids., The key to successful contracting lies in a strong prequalification system that ensures the selected contractor not only is Motivated and Determined to provide you the specified or better product, but also has the Relevant and Effective Experience. Systems in place to ensure he can meet the undertaken commitments. This program is oriented to provide this essential understanding. In this program you will learn about how to setup such a prequalification system - Policy, Procedures, Work Instructions, Controls, Feedback and Continual Improvement., Major Causes of Contractor and Supplier Failure to Perform., Traditional Prequalification Criterion and its Analysis, New Prequalification Strategies: International Best Practices; Industry Specific Best Practices., Systems (processes, policies, procedures, controls, feedback and continual improvement) the Supplier or Contractor must have for us to be able to feel confident of his capability to supply the Promised Products or Services and on time., Set up systems to ensure the loss of user/customer feedback/ preference information due to use of Contractors and Suppliers does not curtail our improvement and innovation processes., Step-by-Step Methodology for Contractor or Major Supplier Prequalification that incorporates the Good and Best Industry Practices., Contract Conditions that assist Contractor's Superior Performance., Also Covered.; Program Introduction, Project Cycle, Prequalification Aspects in Procurement Process, Contracts and Prequalification, Project Planning and Prequalification, Project Price &amp; Cost Analysis Basics, Project Risks &amp; Contingencies, Mitigation of Project Risks, Designing the Prequalification Form, Management Processes that Ensure Customer Needs &amp; Expectations will be Met, Conducting the Prequalification Audit, Evaluation of Prequalification Applications, Prequalification Best Practices, Performance Evaluation of Suppliers, Service Providers &amp; Contractors and using as Input for Prequalification, Alternate Strategies to Prequalification, Setting up Early warning system to Provide Decision Support Data, Workshop Case Studies 1, Workshop Case Studies 2, Program Recommendations, An Individualized Action Plan for each Participant, Program Recommendations.
